# Dog day care

Our day care centre has specially adapted play spaces to ensure that your dog is safe & cared for whilst socialising, having new play experiences and learning with new friends.

Unleashed time is a balance of playing chase, being dog, educational/stimulating games and rest times.

Dogs are supervised at all times by our skilled, qualified and experienced dog care team.

After assessment dogs are divided into play groups by size, age and temperament.

Pick up a happy, socialised, tired and more confident dog at the end of your session.
